The Arvada Golf Advisory Committee (AGAC) was established to provide the Arvada City Council and Department of Vibrant Community and Neighborhoods with valuable community input on priorities and community visions. AGAC is made up of a committed group of volunteers who work to prioritize golf initiatives in the Arvada community. AGAC's primary function, as established by the Arvada City Council, is to recommend priorities to the City Council on projects, initiatives or policies related to golf, the City's golf courses, and the golfing public.
